

Functional Analysis/Behavior Management Plan

Student Name: _____

Date: _____

Case Manager: _____

School: _____

Describe the behavior to be addressed by plan. Include frequency, intensity, and duration.

For each target behavior, describe the setting, antecedents (if known) and consequences of the behavior.

Setting:

Antecedent:

Consequence:

Describe the intended purpose or communicative or functional intent of the target behavior.

Describe the environmental modifications or behavioral interventions previously attempted to remediate the targeted behavior and their results.

Interventions

Results

Describe the nonrestrictive interventions to be implemented in order to elicit alternative and more appropriate behaviors and extinguish the target behavior.

Describe any restrictive interventions to be used.

Describe the measurable behavior changes expected and the method and schedule of evaluation.
